Report on AICTE Sponsored International virtual conference ICRDASIA-2020

Event Name: AICTE sponsored virtual International Conference on Robotics Design and Applications using Wireless Sensor Networks, IoT and Artificial Intelligence in associasion with GNITS and IFERP.

Date: 26th, 27th and 28th November 2020.

Organisers: G. Narayanamma College of Institute of Science and Technology & IFERP.

Delegates: 93 Papers Registered and 58 papers presented virtually using Microsoft Teams

ICRDASIA 2020 organized by GNITS & IFERP was held on 26th, 27th and 28th November 2020 as Virtual Conference and it was held under the auspices keynotes Dr. Vineeth N Balasubramanian Head (AI) & Associate Professor, Computer Science & Engineering, Indian Institute of Technology, Hyderabad, Dr. Mohamed Khan Afthab Ahamed Khan, Assistant Professor, IEEE chairman of Robotics (Malaysia Chapter), department of Mechanical Engineering, UCSI University, Malaysia and Dr.N.C.ShivaPrakash, Professor, Electronics and Instrumentation and Applied Physics, IISC, Bangalore, Karnataka.

Theme for the conference is "Advances in Robotics and IOT Explore'20 the latest research and results of scientists (preferred students, post graduate students, research scholars and post-doc scientists) related to Robotics Design Applications, Artificial Intelligence, IoT and Machine Learning from various departments of engineering and technology which includes Electrical, Electronics & Communication Engineering and Computer Science &Engineering. the conference will feature traditional paper presentations as well as keynote speeches by prominent speakers who will focus on related state-of-the-art technologies in the areas of the conference.

The conference attracted authors of various fields to come forward to register for ICRDASIA 2020, which includes students, faculties, research scholars from various departments of various categories like UG &PG students, researchers, technical persons from industries, professors &heads and so on. Most of the presentations were adhered with advancement, inclusion of IOT, AI, and Design applications in various sectors like health care, colour sorter, ripening detections and electronics applications.
