Dear Hruthika,

As discussed, as a result of the current Covid-19 global pandemic, the following changes are being made to your internship program, and consequently to the letter dated _____ executed in relation to your internship with the firm ("**Internship Letter**"):

1. Considering the government measures around the pandemic management in India, there will be a revision to your start date of internship as called out under clause 3 of the Internship Letter. The revised date of joining will now be June 7, 2021 and your period of Internship may be adjusted accordingly. Therefore, the revised Clause 3 of the Internship Letter shall read as below:

3. Date of Internship

*Your Internship with GSSPL will commence on June 7, 2021 and will terminate 6 weeks later subject to paragraph 8 below ("**Internship Term**").*

2. While the term of your internship has reduced given the Covid-19 situation, with respect to clause 4.1 on stipend that you will be eligible to receive during the period of internship, we would like to inform you that we intend to honor the full financial commitment of the original program duration (that is for 8 weeks), despite the reduction in your internship term. Further information on when and how the payment will be distributed will be shared once you join the firm.

This letter supersedes all other prior communication, with respect to the aforesaid points. All other terms and conditions of the Internship Letter remain unchanged.

Please reach out to your concerned recruiter if you have any further questions.
