Two day workshop on "Web development using Angular JS" for II year
28-09-2018 & 29-09-2018

A REPORT ON Web development using Angular JS

Date: 01/10/2018

A Two Day workshop on "Web development using Angular JS" was organized for II year CSE students, on 28/09/2018 and 29/09/2018 from 9:00a.m. to 4:00p.m. **Mr. Intisar Menhdi, Software Developer, Brain O Vision Solutions India Pvt. Ltd., Hyderabad**, has delivered a series of lectures on both the days.

Day-1(28/09/2018):

In the workshop, the speaker covered various topics in web development using Angular JS like basic concepts of HTML, Fundamentals of JavaScript, and Validating forms using Java Script.

The hands on session was conducted in the afternoon on how to design HTML pages of static and dynamic web pages and some example related to the JavaScript concepts.

Day-2(29/09/2018):

In the second day of workshop, the session has been carried out by explaining the concepts of Java Script, Controllers, Filters and bindings concepts in Angular js, Inserting and retrieving data to and from database.

The Noon session has been carried out practically with the data base concepts of storing and retrieving the data from the database and the binding and filtering examples in JavaScript.

The Two Day workshop has enhanced the knowledge of students and total of **52** students attended the workshop. **70%** of the students gave feedback as **"Excellent"** for theory and Lab sessions. The students expressed that they gained knowledge in very short period and satisfied for the conduction of the workshop.
