

## Entrepreneurship Development Cell (EDC)

### Report on “Start-up Incubator” online session held on 10/05/2021

Date: 20/05/2021

ED Cell GNITS in association with EdVenture Park is organized online session on “**Start-up Incubator**” on 10/05/2021 through one of the online platform from 3.00 pm to 4. pm. This is an informative session to provide an opportunity for the students who are interested in entrepreneurship, brimming with crazy startup ideas and are looking forward to start their own companies. EdVentur Park is a student focused business incubator which empowers early stage startups to revenue generating business. All the interested students of B.Tech II, III & IV year are allowed to attend the session and total 123 student attended this session.

The speaker Mr. Meraj Faheem, covered some exciting topics related to startups with examples and few budding entrepreneurs shared their experience and challenges faced during the beginning of startup.

The speaker mainly focused on startup incubator which helped our students turn their mere idea into a value and revenue generating startup through an intensive Pre- incubation Program. This was an opportunity for students to work real-time on their dream, follow their passion without having to compromise on anything. The students who attended the event gained the knowledge of startup incubator, pro and cons of starting incubator, challenges faced and how to address such problems.

The feedback received from participants is analyzed and received very good response from maximum participants. In future, planning to conduct such event in offline mode as our students can exchange their views with respect to incubator with speakers in better way.

Dr. Rajkumar L. Biradar  
Coordinator, EDC, GNITS
