

Two day Workshop on "Web Development Using PHP" for II Years
02-03-2018 to 03-03-2018

**Report on Web Development using PHP
A 2-Day Workshop
Organized under GNITS-CSI Student Chapter**

Date(s): 2nd & 3rd March, 2018 **Audience:** 2nd B.Tech –CSE- A, B&C

A two day workshop on "Web Development using PHP" was organized on 2nd & 3rd March, 2018 for 2nd year B.Tech CSE students under GNITS-CSI student chapter in association with Brain O Vision Solutions Pvt. Ltd. The speaker was Mr. Mehdi Intisar who is a software engineer.

The workshop was mainly focused on:

- Developing forms
- Fundamentals of Javascript
- Validating forms using Java Script
- Installation of Web Server, Database server and PHP
- Connecting to database using PHP
- Inserting and retrieving data to and from database.

The speaker have put more effort in delivering the content to the students in very less period of time. This workshop has given the students an idea about how to develop a web application using PHP with a hands-on experience. At the end students were given real time scenario to develop a web application.

More than 80 students were attended the workshop and given an overall feedback as "Good" and they are very much interested to attend this kind of workshops in the future.
