

Date: 18-02-2020

To  
The Principal,  
GNITS,  
Hyderabad.

Respected sir,

Through Proper Channel

**Sub:** Permission for accessing hostel mess data to develop prototype for Food Waste Management System.

We N. Haritha (16251A0533), P. Keerthi (16251A0544) the students of final year, CSE Department and D. Anila (17255A0403), K. Anusha (17255A0412) of final year ECE Department, GNITS are doing major project in collaboration with IIIT- Hyd in the domain of IOT, under the guidance of IIIT faculty, Dr. Sachin Chaudhari with Mr. Anil Tellur, Asst. Professor, CSE Department and Mrs. Shanthi, Asst. Professor, ECE Department as our internal guides.

Our project titled "Food Waste Management System using IOT" is being developed as a prototype that will record, monitor and analyse the data of leftover food. This prototype will help to propose the quantity of food to minimize the food wastage and also facilitate fast distribution of the leftover food to nearby NGO's. As part of this prototype development, we humbly request you to grant us permission to access GNITS hostel mess to install the IoT devices to capture the information and develop the algorithms. Once fully prototype is developed, it can have commercial value when deployed in various other hostels or similar places that serve food to large groups. The document proof of collaboration with IIIT Hyderabad has been attached for your reference.

Thanking You

Yours Sincerely,

N.Haritha (16251A0533)

P. Keerthi (16251A0544)

D.Anila (17255A0403)

K. Anusha (17255A0412)

*Request to provide  
permission to develop  
prototype with IIIT H.  
forwarded to  
Principal*
