8. Rate the syllabus content for the courses in terms of burden on students.

9. Rate the experiment list in stimulating the interest of students in the project.

10. Rate the contribution of the courses in terms of professional core area.

Comments from Faculty:

1. Might have been introduced in II/II or III/I so that students get exposure to work on projects.
2. content should be more useful for industry requirement and higher education
3. More practical's need to be included
4. The courses and curriculum are to be designed not according to text books but according to research papers, practical things. Most of the subjects should be practical oriented.
5. Syllabus is good, but based on present quality of students...we need to modify it
6. Need more emerging technology subjects
