9. Rate the percentage of the courses offering LAB components.

10. Rate the composition of the courses in terms of Basic science, Engineering science, Humanities, Discipline core, Discipline elective, Open elective, project etc.?

Comments from Students:

1. The syllabus should be made more industry specific and should be dealt with real life scenarios, i.e. more practical knowledge. Apart from that, the units should be made shorter and exam papers must focus on practical implementation and not memorizing ability.
2. The number of subjects in 4th year should be reduced.
