CIRCULAR

Plastic is everywhere, it is a wide range of synthetic or semi-synthetic materials that kills millions of animals every year, from birds to fish to other marine organisms. Plastic buried deep in landfills can leach harmful chemicals that spread into groundwater, pollutes ground water bodies. In this connection, The Government of India has notified Plastic Waste Management Amendment Rules, 2021, prohibiting identified single-use plastic items by 2022. As a part of Social responsibility towards Environmental Protection, Plastic is banned in GNITS (Use and throw) items in the campus from 01st July 2021.
