Report on “Idea Pitching Competition and Student Entrepreneurial Talk” held on

29/12/2021

Date: 03/01/2022

Mirainxt in association with EDC Club of GNITS has organized an **Idea pitching competition** and **Student Entrepreneur Talk** on 29th December, 2021 from morning to afternoon. Registration Fee for the event was 50/- only. The link for the registration was priorly sent to the respective class groups.

Each student had to come forward with their own interesting entrepreneurial ideas and showcase to the panel. The panel was comprising of all technical employees from the startup Mirainxt with Mr. Kartheek T as Head, marannxt Innovation ceter. Judgement was based on varied criteria of creativity, communication skills and innovation. All the participating students were given certificates and the top performers were awarded special prizes.

This event helped the candidates in bringing out new ideologies, improve their presentation skills, leadership skills, and much more. This event at the end helped our students to explore their entrepreneurial spirit and enhance the creativity in their minds.

The response for training program was very good with the total 103 participants from different departments of B. Tech I, II, and III years students of our college.

Creative thinking and innovation are one of the most essential skills one would need in today's technical world. In the present circumstances, this event created an opportunity to budding engineers who are interested to learn and grow in the aspect of entrepreneurship.

This event helped students to acquire knowledge with much ease and enthusiasm in area of startups and entrepreneurship. Student had a very positive response towards the overall events and were happy with this new experience. The feedback received from participants was analyzed and the coordinators has received a very good response from maximum participants. By seeing this feedback response and such positive response, the club gets the reassurance to conduct such events every year to enhance the knowledge of students with respect to startups and business.
