FACULTY DEVELOPMENT PROGRAM UNDER IQAC

CIRCULAR

Engineers must perform under a standard of professional behavior that requires adherence to the highest principles of ethical conduct. Engineering is a professional career that impact lives. Engineering Ethics applies to every engineer and is very important.

We have seen Machine Learning as a buzzword for the past few years, the reason for this might be the high amount of data production by applications. the increase of computation power in the past few years and the development of better algorithms.

In this context ,for creating Awareness among faculty, on Ethics in the Engineering Workplace and Introduction to Machine Learning, a one day Faculty Development Program in online mode(Using Microsoft Teams Platform) is planned by GNITS on 11-6-21, by **Dr Suresha, AICTE nominated MARGADARSHAK**. He is Specialized in Computer Science & Engineering, and offering webinars to many Degree and Engineering colleges on NEP - 2020, Ethics in the Engineering Workplace ,IT Infrastructure, Machine Learning ,Cyber Security, Block chain Technology, and e-Governance.

Date	Time	TOPIC
11-6-21	11:30A.M to 1:00P.M	Ethics in the Engineering Workplace
11-6-21	2:00 P.M to 3:30P.M	Introduction to Machine Learning

All faculty are requested to attend the above FDP without fail.
