Dear Sowmya,

Congratulations! It is my pleasure to welcome you to the Master of Science in Business Analytics program at the UIC Liautaud Graduate School of Business for the Fall 2021 term. The admissions committee was very impressed by your qualifications and professional aspirations, and we believe that you would be an excellent addition to our STEM designated program. UIC Business remains at the forefront of institutions offering in-demand master's degree programs, and we are proud to provide our students with the opportunity to reach new educational heights and professional goals. I sincerely hope that you will join us at UIC Business to further your education and advance your career.

Based on your undergraduate academic history, the MSBA admissions committee has determined that to complete the program you will need to complete the following course(s) for breadth and background, in addition to the eight courses (32 credit hours) required for the MSBA degree:

Any 2 Business Foundation Courses, Improvisation and Leadership - 2 credit hours (BA 520), Statistics for Management (IDS 570)

As a UIC Global student, you will be eligible to take ten credit hours in your first term. This includes a two-hour Improvisation and Leadership (BA 520) course and eight hours of credits toward your degree. If you have been assigned breadth and background (prerequisite) courses, which would be noted in this letter, you may enroll in additional prerequisite coursework for up to a total of 18 credit hours in your first term. If you have been assigned more than eight hours of prerequisite work, you will enroll in these courses prior to required degree courses. You may take up to 18 credit hours in your first term only if you have been assigned prerequisite courses, otherwise you will register for a maximum of ten credit hours.

You will have the opportunity to discuss your course plan with your program advisor upon arrival to UIC. Should you have any questions, please reach out to UIC Global at admissions@uicglobal.org.

Your admission is a true recognition of your abilities. Once again, I congratulate you and
