Dear Siri Chandana,

Congratulations on your admission to Portland State's Electrical and Computer Engineering, MS program for the Winter 2022 term. We are thrilled to welcome you to graduate school at Oregon's most diverse, innovative and affordable research university.

This letter is your official notification of admission into graduate school and also provides you with important details that you will use during your academic career.

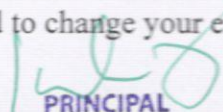

Your initial ECE Faculty Adviser will be Professor Douglas V. Hall. If you have any technical engineering questions, please feel free to directly contact Professor Douglas V. Hall, ECE Graduate Program Director, at d2dh@pdx.edu. If you have any general questions about, for example, registration, scheduling, etc., please feel free to contact ECE Staff member Nate Rose at nrose@pdx.edu. After you are at PSU and get to know the professors, you can then easily ask an appropriate ECE Faculty member, who works in your area of interest, to serve as your Adviser and change to him or her.

Admission to graduate school requires completion of a bachelor's degree prior to the start of your admission term. Please send an official transcript from your degree-granting institution after your degree has been awarded.

Verification that minimum university admissions requirements are met will be confirmed after official transcripts are received and processed. (You are not required to submit transcripts from Portland State.) Please note that you may not register for classes beyond your first term until they are received and final verification has been completed. If you haven't submitted these yet, you will receive an email soon confirming which official documents must be submitted.

It is important that you enroll in the Winter 2022 quarter to which you have been admitted. If you do not register for at least one class, your admission will be canceled. If you need to change your enrollment plans, please contact your program to identify next steps.

Check off additional next steps, like activating your PSU ODIN account, applying for Institute of
