Dear Sir,

I am planning to conduct a 5-DAY online WORKSHOP ON COMPUTER VISION & DEEP LEARNING APPLICATIONS during 13th- 18th July possibly under IEEE HydSec.

Request you to be the resource person .

Awaiting for your response.

I am trying to contact 1-2 faculty from NITW.

Sincerely

Sure, how are you?

How are you handling the current situation? Is your son with you? How is GNITS doing? Do they plan to start or have they started online classes for the on-going students?

Chakravarthy.

Dear Sir,

I am happy to see your mail.

My regards to Padma madam, and children. Hope they are doing well, also elder daughter studies is going on well .

Thank You very much for your encouragement in accepting for resource person.

Presently, am working for 1-year project in collaboration with TEQIP-III/JNTUH on "Pothole detection using depth camera (D435)"

Yes sir, Current situation is very tough. GNITS is doing well. Completed with on-line classes of this semester. Institute of Technology & Science (for women) (AUTONOMOUS) Hyderabad - 500 104.

My son is at home doing well, since 3 months plus, only self study. Nothing is clear of next semester and so on as of now from their college. Younger son is now 10th. Very tough regarding studies, On-line is not so comfortable feeling for students. But have to accept.

About College:

GNITS, a leading engineering college in Hyderabad founded by Late Sri G. Pulla Reddy Garu in 1997, with the objective of providing an excellent learning facility for women to pursue education in engineering. The institute aims to promote technical education among women to enhance and build-up a new generation of thinkers, innovators and planners in the technical realms of Science & Technology. GNITS received UGC autonomous status for 10 years from 2018 and is affiliated to JNTU-H, approved by AICTE, NAAC & NBA accredited.

GNITS, today considered as one of the Best Engineering Colleges in Hyd, providing excellent placements and nurturing young women as technocrats and innovators. MAC lab was sponsored and inaugurated by *Mr. Tim Cook, CEO of M/s APPLE Inc.* in 2016 which enabled GNITS to secure a unique place among all other Engineering Colleges in South India. GNITS has been awarded "AICTE Internshala Award" in Aug 2018, secured "National Employability Award" 3-times in a row for being among top colleges in the State from AMCAT 2017 to 2019, "Best Performance in Placements Award" in Undergrad Summit - 2018 organized by Stumagz, "Educational Leadership Award" by Dewang Mehta, "National Educational Award" by IPE - 2017, Won First prize worth of 17 lakhs in Aegon International - 24 hour Hackathon in Sept. 2018.

About Department:

ECE Department was started in 1997 with an intake of 60 and in a short period, the intake was increased to 180, & M.Tech - DECE started in 2007 with an intake of 18 students. There are 6 Doctorates in the dept. For the academic year 2018-19, the department received 25 lakhs of funding through AICTE. An amount of more than 2crores is spent so far for establishment of labs. The infrastructural facilities have been upgraded in the dept with the extension of existing and new laboratories in the fields of VLSI, Communications, Microwave and Signal processing domains. In 2019-20, dept. has two-TEQIP-III CRS JNTUH projects, and 2 patents are filed. Two value added labs: CoE in Antenna Radiation Pattern Analysis (14GHz VNA, 2x2 MIMO NI USRP, HFSS) and TI Innovation Lab and also is a Nodal Center for IIRS-ISRO Outreach Programmes. Our students are placed in core Companies like L&T Limited, Micron, BOSCH, Polycorn, Qualcomm, Redpine Signals, BTBP, and Medtronics. Every year our students go for higher studies at reputed Indian institutions like IITB, IITH, IITM, NITs and MS in renowned universities abroad.

About the Workshop:

Deep Learning is fast growing in today's research, and finding solutions to most of the Vision and Speech related problems. In the FDP, the sessions will focus on few essential concepts in Computer Vision and Deep Learning. Further various Deep

Learning architectures and networks like R-CNN, GANs and VAE will be discussed. Focus will be on research directions, challenges and limitations in the above fields. Two hands on sessions on basics of OpenCV, TensorFlow & Keras, and 3D Operations are also planned.

IoT is an upcoming area and is quintessential for implementing real time applications. The sessions in FDP will give an insight on the architecture of Communication Technologies of IoT. Research challenges in area of IoT Security will be discussed. Demo sessions using Contiki for IoT protocol implementations will also be covered.

Prerequisites for the Course:

Basic knowledge on Image Processing, Computer Vision and Python programming is an added advantage.

Outcomes of FDP:

- Learn key topics of Computer Vision, Deep Learning & their applications.
- Obtain comprehensive understanding of the technologies in IoT
- Gain knowledge on implementation details of (a)Protocols on Contiki (b)DL using OpenCV
