# International Conference on Robotics Design Applications Using Wireless Sensor Networks, IOT and Artificial Intelligence (CRDASIA 2020)

Organized by GNITS, Hyderabad & IIFERP 26<sup>th</sup>, 27<sup>th</sup> November 2020

**Vineeth N Balasubramanian**, Head (AI) & Associate Professor, Computer Science & Engineering, Indian Institute of Technology Hyderabad, Telangana, India.

**Title:** Towards Explainable and Robust AI Practice

**Abstract:** The last decade has seen rapid strides in Artificial Intelligence (AI) moving from being a fantasy to a reality that is a part of each one of our lives, embedded in various technologies. A catalyst of this rapid uptake has been the enormous success of deep learning methods for addressing problems in various domains including computer vision, natural language processing, and speech understanding. However, as AI makes its way into risk-sensitive and safety-critical applications such as healthcare, aerospace and finance, it is essential for AI models to not only make predictions but also be able to explain their predictions, and be robust to adversarial inputs. This talk will introduce the audience to this increasingly important area of explainable and robust AI, as well as describe some of our recent research in this domain including the role of causality in explainable AI, as well as the connection between explainability and adversarial robustness.

**Bio:** Vineeth N Balasubramanian is an Associate Professor in the Department of Computer Science and Engineering at the Indian Institute of Technology, Hyderabad (IIT-H), and currently also serves as the Head of the Department of Artificial Intelligence at IIT-H. His research interests include deep learning, machine learning, and computer vision. His research has resulted in ~100 peer-reviewed publications at various international venues, including top-tier ones such as ICML, CVPR, NeurIPS, ICCV, KDD, ICDM, and IEEE TPAMI. His PhD dissertation at Arizona State University on the Conformal Predictions framework was nominated for the Outstanding PhD Dissertation at the Department of Computer Science. He is an active reviewer/contributor at many conferences such as NeurIPS, CVPR, ICCV, AAAI, IJCAI as well as journals including IEEE TPAMI, IEEE TNNLS, JMLR and Machine Learning, with recent awards as Outstanding Reviewer at CVPR 2019, ECCV 2020, BMVC 2020. His research is funded by various organizations including DST, MeITY, DRDO, Microsoft Research, Adobe, Intel, and Honeywell. He currently serves as the Secretary of the AAAI India Chapter.
