DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

<GN-R-18> (2022 - 2023) II B.Tech II Sem Hobby Project
on "Infinite Plays"

Abstract

We are making a website on mini games . Mini games are small , often simple games that are designed to be quick and easy to play . Our gaming website will be a perfect place to relax and have some fun with basic two -minute games!.The website will offer a wide range of easy and quick games,perfect for a shortbreak or a quick distraction The project explores various game genres . The Website would feature on some classic games like tic- tac -toe , snake game , tetris as well as other easy games that are simple to learn and play .After finishing the game , the score will be displayed on the screen.

In the website the user can challenge themselves with the computer and the website will be user-friendly with engaging content. These games can serve various purposes, such as providing a break from the work, offering a different type of gameplay, or simply being a fun diversion . The website will provide a wide variety of games to the user so that the user visits the website again and again . The website will be unique and fun indulging so that just as the website name suggests "INFINITE PLAYS" the user will visit and play the games infinite times.
