DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

<GN-R-18> (2022 - 2023) II B .Tech II Sem Hobby Project
on "Online Test using Applets"

Abstract

This project, Online test using Applets implements the Online Examination System, helps universities for functioning of the Examination. It is very essential for universities to handle the Examinations and their results. It is very useful for a university to test its students continuously for their mutual development. This system is helpful for conducting Multiple Choice as well as Free Response Examinations which can be conducted regularly as well as for surprise tests and provides immediate results saving the precious time of faculties to check the papers and prepare mark sheets. The effective use of "On-line Exam System", any Educational Institute or training centres can use it to develop their strategy for arranging the exams, and for getting better results in less time. Online Test App is developed using Applets and implemented in JAVA language

H/W & S/W Requirements

H/W Requirements: Intel Core i3, Hard Disk of capacity 500GB, 8GB RAM, Windows 11.

S/W Requirements: Applets using Java.
