DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

<GN-R-18> (2022 - 2023) II B. Tech II Sem Hobby Project
on "Think Deep"

Abstract:

The project: "Think Deep" is a collection of questions like technical, sports, games etc. A user can access/play all the quizzes or attempt any of the one. There will be a limited number of questions and for each correct answer user will get a credit score. There are many quiz applications available on the internet but there are a few which provide better understanding between user and applications like providing proper answers to the user. To develop a user-friendly quiz application which will contain: Number of quizzes, answers to every question and to improve the knowledge level of the users. To develop the application which will contain solution for the above problems.

An online quiz is a web-based application that allows user to take quizzes on various topics and test their knowledge. The app presents a series of questions and answers in a variety of formats, including multiple choice, true/false questions. By this application the user will come to know his/her level and can learn more additional knowledge among the world. The objective behind quiz app is to evaluate the knowledge of the participants within academics and beyond academics to make them familiar with the prospects of quizzes and the objectivity of questions. Overall, an online quiz app provides an engaging and interactive way for users to test their knowledge and learn new things.
