DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

<GN-R-18> (2022 - 2023) II B.Tech II Sem Hobby Project
on "Personal portfolio"

Abstract

The aim of this project is to create a personal portfolio website that showcases an individual's skills, experiences, and accomplishments. In today's digital age, having a personal portfolio website has become increasingly important for professionals in various fields to showcase their work and build their brand. The website will be designed to be visually appealing and user-friendly, with a clear and concise layout that highlights the most important information.

The project will involve several stages, including researching and identifying the most important aspects of a personal portfolio website, designing a visually appealing and user-friendly layout, and developing the website using modern web development technologies. The website will include sections such as a biography, a list of skills, a portfolio of projects, and a contact form. The website will be designed to be responsive, meaning it will be optimized for use on both desktop and mobile devices. Additionally, the website will be designed with search engine optimization (SEO) in mind, to increase its visibility and ranking on search engines.

H/W & S/W Requirements

H/W Requirements: intel core i5 processor, hard disk capacity of 500GB, 8GB RAM, 64 bit OS

S/W Requirements: HTML, CSS, JAVA SCRIPT

*Dept R&D: Yes / No

* If No : GNITS
