### DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

<GN-R-18> (2022 - 2023) II B.Tech II Sem Hobby Project on

### “FARMING ASSISTANCE”

#### Abstract

This project helps farmers ensure greater profitability through direct farmer to supplier and farmer to farmer communication. This service boosts business communication and brings transparency in the system. Separate field areas with approximated functionality for farmers, suppliers and authorities. This innovative site allows for good farmer, retailer and supplier communication. It allows farmers to communicate to respective dealers. When dealers publish an advertisement or offer, the respective farmers get notified through the website and via sms. Supplier can rate or give feedback to the respective customer based on the quality of his grievances. The farmers may also submit their grievances and complaints to respective dealers or authorities on a separate complaints page and authorities will get access to that page regularly using their credentials.

#### H/W & S/W Requirements

- Processor- i5, Memory- 8GB
- Windows 11, Visual Studio Code 2023, SQL 2022
