DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

GN-R-18 (2022 - 2023) II B.Tech II Semester Hobby Project ON
"STARTUP INITIATIVE"

Abstract

The aim of the project is to create a centralised platform for collecting and presenting information about different startups, including their products, services, ratings, reviews, job requirements, profits, funding, resources, collaborations, and other relevant data. The website will provide a user-friendly interface to navigate through different categories and filter out startups based on specific criteria. This project will also enable startups to create their profiles and update their information regularly. The goal is to make it easier for potential investors, employees, and customers to discover and engage with startups that align with their interests and needs, it act as a central hub for startup information, bridging the gap between startups and potential investors.
