### DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

<GN-R-18> (2022 - 2023) II B.Tech II Sem Hobby Project on  
"Pharmaceutical Management"

### Abstract

It is a web application for a medical store to manage and track information related to the availability of medicines, their prices, and expiry dates. The application will provide a user-friendly interface for customers to search for medicines and get information About their availability, prices, and expiry dates. The system will be designed to enable the medical store to manage inventory, track sales, and generate reports to help them make informed decisions. Additionally, the application will include features such as prescription management, and alerts for medicine expiry dates. This application aims to provide a more efficient and streamlined experience for both customers and the medical store.

### H/W & S/W

- i5 processor, 16GB RAM
- asp.net web pages , Javascript , SQL server
