DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING
<GN-R-18> (2022 - 2023) II B.Tech II Sem Hobby Project
on "News App"

Abstract

A news app is a software application designed to deliver news content to users on their mobile devices or tablets. The app provides a personalized and convenient way to stay informed on local, national, and global events, as well as access breaking news and exclusive content. News apps are a valuable tool for staying informed and up-to-date on the latest news and events. They provide users with a personalized, convenient, and engaging experience that caters to their preferences and needs. Overall, news apps are a convenient and valuable tool for people who want to stay informed and up-to-date on the latest news and events.

H/W & S/W Requirements

- This project requires a Windows's operating system as hardware.
