DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

<GN-R-18> (2022 - 2023) II B.Tech II Sem Hobby Project on

“Quiz application”

Abstract:

The application will provide convenience in the MCQ mode of examinations and screening tests. This application will eliminate paperwork and will be able to effectively store all the information in the database. The purpose of this application is to save student data, measure the marks obtained by each student, and point out their mistakes. The ‘MCQ Quiz Application’ project developed to overcome the time-consuming problem of manual system. Apart from that in current system, checking the answer sheets after taking test, waste the examiners time, so this application will check the correct answer and save the examiner time and carry the examination in an effective manner. The users which are use this system don't need to high computing knowledge and also system will inform them while entering invalid data.

H/W and S/W Requirements:

- Operating system : Windows, Android
- Programming language : java ,XML
- Processor :Inter 13
