### DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

<GN-R-18> (2022 - 2023) IIB.TechII Sem Hobby Project ON  
JOYCUT FLORALS

#### Abstract:

Flower consumption is becoming more and more prosperous in recent years. Besides the useful and benefit with tools, it can make people enjoy their eyes and beautify their homes. The designed JOYCUT FLORALS is an e-commerce platform. Through it, consumers can browse a series of information, such as flower information, special flowers. Consumers can easily find the pictures and details of flowers they need. For consumers, it is possible to "shop at home", order can be placed at anytime. The purchase of goods to the door does not need to be on the scene, both time-saving and labour - saving, as the project name saves a series of expenses, such as storefront, employee and storage, the total price is cheaper than the same flower in the traditional flower shop. JOYCUT FLORALS breaks through the barriers of traditional business. It has great attraction and influence to consumers, enterprises and the market. This Website JOYCUT FLORALS makes the people life easy and way better. The website mainly delivers the flowers for special occasions of people. The website also contain the information of the past customers and the detailed information of their previous purchase and it also provides the options to the customers based on their interests. JOYCUT FLORALS commitment to quality and customer satisfaction ensures that every bouquet is delivered on time and with care.
