DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

<GN-R-18> (2022 - 2023) II B.Tech II Sem Hobby Project

"Canteen Management System"

Abstract

The main aim of this project is to provide fast services to their college students, Staffs etc. Usually People have to go to canteen and order the foods and have to wait in queue for a long time to get the orders. But with the help of this one can just have to follow a very simple process to order the stuffs. And there is no need to wait in the long queue. This app will provide the list of different menu list with different categories. User can select any item from canteen and can order for it by using debit card payment or wallet Payment. Wallet Recharging available with debit card details or admin can add amount in user's wallet. Users have to register with valid details and OTP which will get sent to their mobile number to login with canteen. Users also get recommendation for food items, Trending food items.
