DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

<GN-R-18> (2022 - 2023) II B.Tech II Sem Hobby Project
on " CAREER GUIDE WEB APP"

Abstract

The purpose of a "career guide app" is to provide individuals with guidance and resources to help them navigate the complex process of career planning and development.

Using Node.js, Express.js, MongoDB, and EJS. The application will allow users to create an account, log in, and post updates. It will also allow users to view other users' posts, like and comment on them, and follow other users.

The app can help users identify their strengths and interests, explore potential career paths, and access educational and training opportunities. Additionally, the app can assist users in developing job search skills such as resume writing and interviewing, as well as provide insights into specific industries and job markets.

Ultimately, the goal of a career guide app is to empower individuals to make informed decisions about their career development and achieve their professional goals.

by using a career guide app, individuals can gain access to valuable information and support to help them make informed decisions about their career development and achieve their professional goals.

In conclusion, a career guide web app can be an effective tool for individuals who are seeking guidance and resources to help them plan and develop their career paths.
