DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

R-18 (2022 - 2023) II B.Tech II Sem Hobby project on
"Innup - A Platform for Aspiring Speakers."

Abstract

To be a renowned speaker for international platforms such as ted talks or masterclass, people need a base of lining and this is where we provide our platform "Innup - base for your stroke of voice". Innup is a platform where any individual can let their voices be heard and give motivational keynotes to people without having prior experience. Innup is all about giving and getting a chance, where the users go through a screening round and after they get processed and selected they will be one of the users or members of Innup. Innup primarily focuses on building its platform as a website and emerging into much more. Using technologies and languages such as "HTML, CSS, Bootstrap and Javascript" we focus on making Innup visually appealing and easy to use. And for the back end software we use technologies like Java programming language majoring in the concept of Machine Learning by giving user preferences option in Innup website.

H/W & S/W Requirements

Software Requirements: HTML, CSS, Bootstrap, Javascript, Machine Learning and Java programming language

Hardware Requirements: Name of the Processor- Intel core 64-bit processor, Hard Disk Capacity- 120 GB, RAM Capacity- 8GB RAM

*Dept R&D: No

*If No : GNITS
