DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

<GN-R-18> (2022 - 2023) II B.Tech II Sem Hobby Project
on "Task remainder"

Abstract

Due to some busy work schedules for us, Sometimes we may forgot some important things like attending calls, attending meetings, attending parties, taking pills, going to some place etc. We are developing an app which will be helpful to us to remaind our tasks in a friendly way.

App design features:

Login page, Age group selection (children or adult or oldage), According to the age group, the task remainders selections. (for children: to do homework, to sleep for some time, to play for some time etc., for adult: to attend the meetings or calls, to go to some party, to go to office etc., for oldage people: to take pills, to sleep for some time etc..) If the remainder which we needed is not there, then we can able set it by our own by giving some name to it.

With the help of this app, we can ensure that our works will goes on in a good way without bothering about all the things.

H/W & S/W Requirements

Hardware: Intel I3 processor, Hard disk of capacity 500GB, 8 GB RAM, Windows 10 or 11

Software: Java, HTML, Python.

*Dept R&D: No

* If No : GNITS
