DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

<GN-R-18> (2022 - 2023) II B.Tech II Sem Hobby Project

on "AutoSilent"

Abstract

The basic need these days in one's routine is a MOBILE. How if it is the cause of some distraction in the most important hours of the day? The application namely "AUTOSILENT" is a user-friendly app that resolves this issue. The user has to schedule the day and time of the week on which they want to silent their mobile to silent mode so that the phone doesn't ring while attending a meeting, class etc. The mobile automatically goes to silent mode & change into normal mode in prescribed time. Firstly the user has to create a profile name. Then have to give a short description of the timer. After that the user has to select the timer. More than one timer can also be added. One can also update or delete the timer. Then have to select the mode that activates automatically after this specified timer. At last user has to activate the timer. The app runs in the background during the timer that was setup.

H/W & S/W Requirements

The processor is 11th Gen Intel(R) Core(TM) i5-11320H @ 3.20GHz 2.50 GHz,

RAM capacity is 16.0GB

The software used is android studio.
