### DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING (DATA SCIENCE)

<GN-R-18> (2022 - 2023) II B.Tech II Sem Hobby Project

on

### “AIC-GNITS”

#### Abstract

Atal Innovation Mission (AIM) is Government of India's flagship initiative to create and promote a culture of innovation and entrepreneurship across the length and breadth of our country. AIM's objective is to develop new programs and policies for fostering innovation in different sectors of the economy, provide platforms and collaboration opportunities for different stakeholders, and create an umbrella structure to oversee the innovation & entrepreneurship ecosystem of the country.

AIC-GNITS Foundation is a Section 8 Company registered under the Company's Act 2013, established on March 2023. AIC-GNITS Foundation is supported by Atal Innovation Mission, NITI Aayog, Government of India. The web application features various components to engage and provide the users with a smooth and seamless user interface.

It consists of a 'Home' page that serves as a main landing point, an 'About us' page which showcases the Vision, Mission and the members of the AIC-GNITS team along with their mentors and partners. There is a dedicated page highlighting the diverse programs offered by the Centre to ensure user awareness. Additionally, there are separate pages dedicated to showcasing successful startups that have received funding from the incubation Centre, as well as detailing the range of services provided by the Centre. An engaging blog section has been incorporated, which is a valuable resource for individuals seeking to stay informed and up-to-date with relevant developments in their field. Lastly, the application provides a contact page that offers a user-friendly interface for individuals to get in touch with the Centre.

**H/W & S/W Requirements:** ReactJS, JavaScript, TypeScript, Tailwind CSS, MongoDB, Mongoose, ExpressJS, HTML, Firebase.

\*Dept R&D: Yes / No
