## DEPARTMENT of ELECTRONICS and TELEMATICS ENGINEERING

### 3 Day “Hands-on workshop on Machine Learning”

#### REPORT

Date:15/05/2023

Electronics and Telematics Engineering Dept, GNITS (for women), Hyderabad has conducted a 3 day “Hands-on workshop on Machine Learning”. Total of 50 participants from ETE department of GNITS participated in the workshop.

This workshop has enhanced the knowledge on the upcoming technical areas of Machine Learning among the participants. In this workshop Dr. Vancha Maheshwar Reddy, Associate Professor of ACE Engineering College, was the speaker and he focused on fundamental concepts and applications of various machine learning algorithms through hands-on sessions. The facilitators emphasized the importance of understanding data preprocessing techniques, feature engineering, and model evaluation methods. The workshop covered algorithms like linear regression, logistic regression. This workshop facilitated students to gain practical knowledge on Machine Learning.

95% of the students gave GOOD feedback.
