ECE Department

Value Added Course

AI Powered Embedded Systems and IOT

Period of Instruction:40 Hrs

Resource Person: J.Prem Kumar, Product Manager in PVR Tech HUB

Course Contents:

Unit 1: Embedded Systems (~10 Lecture Hours)

Introduction to Microcontrollers, Comparison between Microprocessors and Microcontrollers, Digital Input and Output Ports, Analog Input and Output Ports, Communication Protocols, USART, Inter-Integrated Circuit (IIC), Serial Peripheral Interface (SPI), Programming Embedded Systems with Embedded C and Micro Python.

Unit 2: Interfacing Sensors, MEMS and Actuators (~10 Lecture Hours)

Introduction to Sensors, Analog and Digital Sensors, Understanding Sensor Specifications, Microelectromechanical Systems-MEMS, Interfacing Sensors and MEMS, Collecting Sensor Data, RGB Camera, Depth Camera, Interfacing DC Motors and Servos, Programming concepts to use Sensors, MEMS, Cameras, DC Motors and Servo Motors for Engineering Applications.

Unit 3: Artificial Neural Network-ANN and Deep Neural Network-DNN (~10 Lecture Hours)

Introduction to Artificial Neural Networks-ANN, Architecture of ANN, Training, Validating and Testing ANN, Applications of ANN, Introduction to Deep Neural Network-DNN, Architecture of DNN, Convolutional Neural Network, Comparison between ANN and DNN, Advantages of DNN, Applications of DNN.

Unit 4: Internet of Things (~10 Lecture Hours)

Introduction to Internet of Things-IOT, Different IOT Cloud Platforms, Introduction to Industrial Internet of Things-IIOT, synchronizing associated device data to IOT Cloud, Analytics of IOT Data, Dashboards and Visualization, Sharing of Dashboards, Exploring Free IOT Cloud Platforms, Applications of IOT.

VAC Report: AI Powered Embedded Systems and IoT Date: 03/04/2023

Title: AI Powered Embedded Systems and IoT

Date/s: 25/02/2023, 04/03/2023, 18/03/2023, 25/03/2023 and 01/04/2023 (Every Saturday)

Preamble: A 30 Hour Value Added Course on "AI Powered Embedded Systems and IoT" for III Year B. Tech Students in Electronics and Communication Engineering Department, GNITS.

Participants Profile: A total number of 198 III B.Tech students participated

Description about program:

The Value Added Course commenced with a thoughtful message from Mr. V. Ram Kumar, the CEO of PVR Tech Hub and Mr. J Prem Kumar, Product Manager for Math Works Products in Capricot Technologies Private Limited emphasizing the significance of skill development in Machine Learning, Artificial Intelligence and Internet of Things for aspiring young engineers. The day commenced with an insightful overview of AI and ML, shedding light on their latest advancements.

Following that, the students were divided into three teams, each focusing on different aspects: datasets, model training, and sending sensor data to a cloud platform. In the subsequent days, the students received comprehensive training in data collection, including utilizing existing datasets and creating their own. Additionally, they learned how to interface sensors with microcontrollers, further expanding their understanding.

To cater to the diverse interests of the students, the course was divided into three subdivisions: Machine Learning, Artificial Intelligence and IoT. Expert trainers from PVR Tech Hub provided detailed information about datasets suitable for academic purposes, imparting knowledge on how to create and train models effectively. Students were fortunate to witness live demonstrations showcasing the deployment of trained models on actual hardware. The students also had the opportunity to compare the advantages of Transfer Learning with models built from scratch, gaining valuable insights. Moreover, they were introduced to free cloud platforms such as Thing speak, Blynk etc., which facilitated their exploration of IoT.

Towards the end of the course, all three sections were assigned the task of implementing real-time applications in Machine Learning, Artificial Intelligence, and IoT. Under the guidance of expert trainers, students diligently worked to bring these concepts to life. Overall, the course provided a comprehensive understanding of AI, ML, and IoT, empowering students to apply their newfound knowledge and skills in practical scenarios.

Resource Persons:

Mr. J Prem Kumar Product Manager for Math Works Products in Capricot Technologies Private Limited
Mr. Ram Kumar V Over 20 years of experience in SAP-ERP, IT infrastructure, IOT, Intelligent Transportation System and Vehicle Tracking System, etc.
Mr. Vijay Dhev Over 23 plus years of experience in Cloud Security expert in the area of virtualization security Application security, etc.
Mr. Bhaskar Over 15 years of Experience into Embedded Systems, Product Management etc.,
