In association with

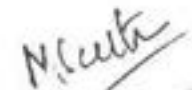

BRAIN O VISION Solutions India Pvt. Ltd

Dear Sir/Madam,

Department of CSE, G. Narayanamma Institute of Technology and Science (for Women), Shaikpet, Hyderabad, Telangana and BRAIN O VISION Solutions India Pvt. Ltd., are pleased to invite you to attend Faculty Development Programme (FDP) on "Artificial Intelligence" to be held from 22nd - 28th May, 2020 in ONLINE MODE. This FDP is designed to encourage research among the Academicians and Professionals about Artificial Intelligence. Academicians are likely to grab knowledge about Artificial intelligence (AI) is **the ability of a computer or a robot controlled by a computer to do tasks** that are usually done by humans because they require human intelligence and discernment. Any system that perceives its environment and takes actions that maximize its chance of achieving its goals. Some popular accounts use the term "artificial intelligence" to describe machines that mimic "cognitive" functions that humans associate with the human mind, such as "learning" and "problem solving", however, this definition is rejected by major AI researchers

I take the privilege to request you to give wide publicity to this FDP in your organization by circulating the enclosed brochure that contains detailed information.

Action Taken on FDP “Artificial Intelligence” Held on 22-05-2020 to 26-05-2020

Actions Taken:After conducting an in-depth analysis of the feedback received for our Faculty Development Program (FDP), we found that the assignments and overall rating were slightly below our expectations. To address this concern and ensure a more enriching learning experience for our participants, we have decided to take decisive actions. Moving forward, we will be transitioning the FDP to an offline mode. This change aims to foster better engagement and interaction among participants, providing them with a more conducive environment for learning and collaboration. Additionally, we will be incorporating valuable insights from the feedback into the course content and structure, tailoring it to meet the specific needs and preferences of our participants. By implementing these actions, we are confident that the FDP will witness significant improvements, enabling us to better support the professional growth and development of our faculty members. We are excited about this positive change and look forward to the enhanced outcomes it will bring.
