**9. Rate the experiment list in stimulating the interest of students in the project.**

## 10. Rate the contribution of the courses in terms of professional core area.

### Curriculum Feedback suggestions from Faculty:

- Organize the subjects so that projects related subjects dealt before they do projects.
- If more professional elective courses are added means it will be benefit for the students.
- Should include current emerging technologies used in industry like fullstack development, Devops.
- Should include some more new technologies in the curriculum.
- More electives should be included with respect to industry requirement.
- Please verify the distribution of topics in all the units.
- Few courses like IOT , WT , Blockchain ,ML should be reordered before the commencement of project works.
- Better to add few more courses that can help students do better in software jobs.
