

**G.NARAYANAMMA INSTITUTE OF TECHNOLOGY & SCIENCE (For Women)**  
**(AUTONOMOUS)**  
**Shaikpet, Hyderabad – 500104**

**Placement Training summary**  
**(Academic year-2021-22)**

In the academic year 2021-22, Conduira Education & Training Service Pvt. Ltd. actively engaged in a Campus Recruitment Training initiative, benefiting 660 engineering students representing various engineering branches. The central objective of this program remained consistent: to furnish these students with essential skills vital for success in job assessments and interviews conducted right within the college campus. To achieve this, the program placed special emphasis on preparing graduating students for employment opportunities, focusing on C programming, Data Structures, and Java coding. The program's structure was thoughtfully designed, featuring a meticulously planned curriculum that comprehensively addressed all the necessary aspects required for students' upcoming job interviews. Proficient trainers provided expert guidance throughout the program, ensuring that students received consistent support at every stage of their journey. Additionally, regular assessments and tests were seamlessly integrated into the program, serving as valuable tools to assess student progress and identify areas where additional assistance was needed. The outcomes achieved through this commendable initiative were nothing short of remarkable. Students not only exhibited improved technical competence in C&DS and Java coding but also cultivated newfound self-confidence. This boost in self-assurance played a pivotal role in their success during job interviews, resulting in a substantial number of securing positions in highly-regarded companies. This program underscored the significance of not merely acquiring technical skills but also nurturing self-confidence, an indispensable element as students embark on their professional journeys. Conduira's steadfast dedication to elevating both coding abilities and self-confidence had a profoundly positive impact on these students, effectively bridging the chasm between their academic education and the real-world job requirements they encountered.
