Stakeholder Curriculum Feedback
Summary and Actions Taken
2022-23

Feedback on GNR-18 collected from various stakeholders. Following are the inputs received from the stake holders regarding the syllabus.

The stake holder feedback report was put forward in the DAC meeting of CSE(Data Science) department and a detailed discussion was made and the following actions were proposed:

FEEDBACK SUMMARY

- Faculty members suggested revision of some subjects and to introduce industry collaborated courses.
- The focus of students is more on the labs which should include new courses which are more related to their core area and help them do their projects.
- Parents suggested introducing new courses which meets industry requirements.
- Employers emphasized on introducing advanced courses and new tools which help students gain knowledge on par with current trends.

ACTIONS TAKEN

- New Courses related to core specialization, like Data Science using R, Exploratory Data Analysis, Mobile application Development were introduced in the curriculum.
- Syllabus of some subjects like Machine Learning, Automata and Complier Design were revised upon the stakeholder's suggestions.
- Workshops with hands-on, hackathons are being conducted as value added courses to gain more practical knowledge.
- Advanced courses like python, R, DevOps were introduced as part of lab curriculum along with theory which help them do their mini and major projects.
- MoU's were signed up with software companies to give real time exposure to students.
