THREE DAY WORKSHOP ON CYBER SECURITY AND ETHICAL HACKING WORKSHOP

(28th – 30th March, 2022)
Organized by
Electronics and Telematics Engineering Department
G. Narayanamma Institute of Technology and Science (for Women)
AUTONOMOUS, Shaikpet, Hyderabad.

About the speaker

Mr. Ajinkya Being a Cyber Security Researcher and Ethical Hacking Expert, has revealed numerous critical vulnerabilities, bugs and loop holes on websites and networks of major corporate, institutions and government portals. Conducted more than 300+ workshops all over globe. He's been invited to some of the top institutions across the country ranging from NITSs to IITs, to interact with some of the brightest minds in the country. Ajinkya Lohakare also has a vast experience in conducting customized training of art programmed for a variety of different audience. He has conducted more than 100 different Training & Awareness Sessions which Includes Financial & Banking Sector, Software Sector, Internet Service Sector, Government Sector Transportation Sector, and so on.

About the workshop

This course will teach the most effective steps to prevent attacks and detect adversaries with actionable techniques. You will learn tips and tricks designed to help you win the battle against the wide range of cyber adversaries that want to harm your environment.

You will learn

1.) The core areas of cybersecurity and how to create a security program that is built on a foundation of Detection, Response, and Prevention.

2.) Practical tips and tricks that focus on addressing high-priority security problems within your organization and doing the right things that lead to security solutions that work.

3.) How adversaries adapt tactics and techniques, and importantly how to adapt your defense accordingly.

4.) What ransomware is and how to better defend against it.

5.) How to leverage a defensible network architecture (VLANs, NAC, and 802.1x) based on advanced persistent threat indicators of compromise.

6.) The Identity and Access Management (IAM) methodology, including aspects of strong authentication (Multi-Factor Authentication).

7.) How to leverage the strengths and differences among the top three cloud providers (Amazon, Microsoft, and Google), including the concepts of multi-cloud.
