REPORT

Advanced Android development Training & Design Thinking Workshop

Date of program: 28-08-2018 to 01-09-2018

Resource person: Lalit Singh Manral, Training Specialist ASG, Google

About the Program:

The sessions of AAD workshop covered variety of Android topics broadly categorized as how to expand the user experience; how to make apps fast and small; how to make app accessible; how to add geo features to apps; how to work with advance graphics & views; and how to manage architecture components of an app. The objective of this workshop was to identify problems and find solution through five phases: Empathy, Define, Ideate, Prototype & Test. The overall workshop was very valuable and has helped faculty members to train & guide students with better perspective.
