### About the FDP:

This FDP is organized to keep in line with NEP 2020's objective to reconfigure the education system of India on the framework of the Indian knowledge System (IKS). It is aimed at building a comprehensive perspective on the need, relevance and essence of IKS.

The Indian way of thought and knowledge systems have much to offer for making a more sustainable, harmonious and peaceful world. To teach this Indian way to future generations, the teachers must be familiarised and such foundational programs will go a long way in making this possible. In the context of the nation's current initiatives to implement the NEP 2020, the organizers of the FDP hope to contribute to enriching the participating Teachers' awareness of the IKS with pertinent reflections for the NEP 2020.
