

One Page Report on one day FDP on “ICT Tools and VITURAL LABS The Future of Education”

On the occasion of Engineers day One day Faculty Development Program is Organized on “ICT Tools and VITURAL LABS The Future of Education” at GNITS in collaboration with Teenzclap & Accops and IWN. Resource persons are **Mr. Rishi Kapal** Author & Careers Specialist, Stanford LEAD Fellow, Former CXO, **Mr. Rupesh Tiwari**, Product Manager, **Mr. Suresh Bhutani**, Senior Technical Specialist, **Mr. Prerit Bhatnagar**, Associate Project Manager from Technology and management team of Accops, an international company providing ICT and Virtual Labs to institutes in South East Asia. This FDP is Coordinated by **Dr. Meeniga Vijaya Lakshmi**, Assoc. Prof, ECE along with team, G. Narayanamma Institute of Technology & Science (For Women), Hyderabad. It is completed in the late evening on 15-09-23. Total 35 faculty members have been participated in the FDP.

Mr. Rishi Kapal, Author, Career Specialist, Stanford LEAD Fellow, Former CXO added that Information and Communication Technology (ICT) tools and virtual labs play a crucial role in education, research, and various industries. They provide a means to enhance learning, conduct experiments, and collaborate remotely. ICT tools and virtual labs have revolutionized education, research, and various industries by making resources and experiences more accessible, efficient, and flexible. They continue to evolve, enabling new ways of learning, experimenting, and collaborating, especially in today's globalized and digitalized world.

The topics discussed in the FDP are

- Understand Cost Effective Virtual Labs for education,
- Integration of ICT and Virtual Labs,
- Accessibility and Inclusivity with virtual labs
- Integration of Virtual Labs with Assessment
