Internal Quality Assurance Cell (IQAC), GNITS is organising Faculty Development Programs (FDPs) on Teaching and Learning Strategies for Engineering Education are crucial for enhancing educators' skills. These programs focus on incorporating active learning methodologies like Problem-Based Learning (PBL), Project-Based Learning (PjBL), and technology integration. FDPs are also useful for Career and Personal development of the faculty members which emphasizes upon life planning, interpersonal and communication skills of faculty members. Assessment strategies, including diverse evaluation methods, are discussed. The FDPs also address the importance of industry collaboration, encouraging educators to establish connections with professionals and integrate real-world applications into the curriculum. Ethical considerations and social responsibility discussions are highlighted, ensuring a comprehensive approach to engineering education. In This Context five day FDP is planned on "Teaching and Learning Strategies For Engineering Education".

Topics covered in the FDP:

1. Effective presentation skills for high impact
2. Motivation for success in professional studies
3. Communication skills & culture integrity in class room
4. Stress management
5. Micro teaching
6. Research paper writing
7. NEP 2020.

Date of FDP: 20 NOV 2023 to 24 NOV 2023.

Mode: OFF LINE
