Greetings of the day sir,

sir I have to give a design seminar in osmania university as a part of my research work. So now I have to define my objective and future scopes very clearly and I have to make a mini document also. To prepare them I need some inputs (challenges that can be solved by computer aided programming) from your side.

I am attaching the Doubt in this mail and waiting for your reply. Also please give some challenges for my Research work.

Thanks &amp; Regards,

Rakesh kumar Y
