A Report on Workshop on "Android App Development Using Kotlin"

Date: 22/12/2023

Event Date: 18/12/2023 to 20/12/2023

Speaker: Ms. Renuka Venkata Ramani Challa, Mr. Viswanath Kumar Sandu
            Director & Co-founder of Improve10x

Participants: II B.Tech students of CSE, CSE (AI & ML), CSE (Data Science) & IT

Key points:

- Introduction to Android and Android studio
- Introduction to Kotlin
- User behavior based development
- Need based learning with AI
- Integrating Google maps into android applications
- Building application from scratch during 24 hrs hackathon

Number of participants: 80

Feedback: The workshop focused on how to develop Android application using Kotlin with the practical sessions. The overall feedback received was excellent. After successful completion students were able to design small mobile application on their own.
