

“The relevance of Humanities and Mathematics in the context of Industry 4.0”

The Department of Humanities & mathematics conducted two day workshop on “The relevance of Humanities and Mathematics in the context of Industry 4.0” dated on 2nd-3rd December 2023. The main objective of this work shop is to create a platform for sharing thoughtful conversations and insightful discussions on the connectivity between Academia and Industry. Resource persons from reputed institutes like ISRO, ZFIT, Deloitte, Microsoft etc. interacted and shared their knowledge with the participants. The program was organized under the guidance of Principal Dr. K. Ramesh Reddy, Head of the department Humanities & Mathematics Professor Dr. P. Aparna, with Dr. M. Nagasree as the coordinator. Around 150 faculty members and students participated in the workshop.
