ALEAP WE HUB (Association of Lady Entrepreneurs of India) - Industrial Visit

Date of the Program: 11-10-2023 to 13-10-2023

Program Coordinator
Dr. Vijaya Lakshmi V.

Number of Participants : **223**

About the Program: GNITS conducted a Industrial Visit for IV B.Tech Students as a part of their academic Curriculum to **ALEAP WE HUB (Association of Lady Entrepreneurs of India)** from 11-10-2023 to 13-10-2023.

Institutes Visited:

- Centre for Entrepreneurship Development (CED)
- Common Facility Building

Overview:

The visit to ALEAP, Pragathi Nagar was an enlightening experience for the Students. They were welcomed with a seminar focusing on Women Entrepreneurship and the vital role played by ALEAP. During the seminar, we learned about the numerous programs and opportunities ALEAP offers to aspiring Women Entrepreneurs.

They had an Interaction with Two Young and Inspiring Entrepreneurs, “**Mohan Reddy**” & “**Vihaan Tari**” who shared their remarkable journey, offering insights into the extraordinary endeavour—a Robotic Trash-collecting boat engineered to cleanse waste from water bodies. The innovation, remarkable in its own right, was inaugurated at the "Young Entrepreneurship-Bridging the Gap" event, a noteworthy initiative that is generously supported by the Atal Incubation Centre at ALEAP WE HUB.

Facility Tour:

The comprehensive tour of ALEAP's facilities was undoubtedly a highlight of the visit. This journey through the heart of ALEAP unveiled a diverse array of areas and initiatives that underpin the organization's ethos. Noteworthy aspects of the tour included:

- The expansive jute printing and weaving stations that not only showcased the intricacies of traditional craftsmanship but also demonstrated a commitment to sustainable practices.
- The food processing units, a testament to the pivotal role of agribusiness and food innovation within ALEAP's mission.
- An in-house aquaculture setup, masterfully designed to promote sustainable practices and innovative aquaculture technology, which resonates deeply with the organization's dedication to environmental and economic sustainability.

REPORT**

The Visit to ALEAP left an indelible mark, offering Students an intimate glimpse into the organization's unwavering dedication to entrepreneurship, innovation, and sustainability. The tour of their facilities provided valuable insights into a multitude of industries and initiatives, all of which contribute significantly to economic growth and community development. As we depart, we look forward with enthusiasm to potential collaborations and opportunities that may sprout from this transformative visit.
