Circular

Its immense pleasure to inform all that, on account of "TEJASS-FEST" EEE Department students are organizing a fest themed as "Electro Blitz" on 19-04-2023(Wednesday).

The fest includes many exciting events and stalls, that will be set up outside the premises of the EEE Department. The information regarding all the events and stalls is attached for further information.

All interested students are requested to participate in the events and utilize the opportunity to enhance their skills.

Note:

Students can register their names for stalls by contacting the executive members of their respective year and section.

TEJASS

Event Report

Event Name: Technical Fest 2023- Electro Blitz

Event Date: 19-04-23

Venue: EEE Block, GNITS

Participants: 50 enthusiastic participants actively engaged in the event.

Event Overview: The Technical Fest 2023-Electro Blitz was a dynamic platform that brought together intellectual minds, fostering innovation and technical prowess. With a focus on diverse technical topics, the event aimed to showcase the participants' research, ideas, and analytical skills. Event Highlights as follows:

Technical Poster Presentation: Participants exhibited their research findings and technical expertise through visually appealing posters. The event encouraged creative expression and effective communication of complex ideas.

Technical Quiz:The Technical Quiz challenged participants' knowledge on a wide range of technical subjects. The quiz covered areas such as programming languages, latest technological trends, and historical milestones in the world of technology.

Code Debugging:A hands-on challenge where participants had to identify and fix bugs in given code snippets. This event tested their programming and debugging skills under time constraints.

Arts:As technology and art often intersect, this segment allowed participants to explore the fusion of creativity and technology. Participants showcased their artistic talents through various mediums, interpreting technology in unique and captivating ways.

Storytelling:The Storytelling event provided a platform for participants to narrate compelling stories related to technology. From futuristic tales to real-life experiences, participants captivated the audience with their narrative skills.

JAM (Just-A-Minute):It was a fast-paced, engaging event where participants had to speak on a given technical topic for one minute without hesitation, repetition, or deviation. JAM tested participants' spontaneity and ability to communicate effectively under pressure.
